

Sun Protection Accreditation CERTIFICATE

is a Sun Protection Accredited tournament/fixture

This certificate signifies that we have agreed to put into place the following actions:

- Appoint a sun pro ambassador to review and distribute campaign messages to organisers, players, and those attending.
- Add a sun protection statement to your terms and conditions of play and employment (or similar health and safety policy).
- Display awareness posters to help keep sun protection front of mind for all, whilst setting up and during the event.
- Ensure that sunscreen is available for all whilst setting up, and during the event, either to purchase or in dispensers.
- Display the accreditation logo and certificate and promote the Slip! Slap! Swing! campaign on your website and socials.

The Slip! Slap! Swing! sun protection campaign for golf was created by the Melanoma Fund to ensure that everyone in the sport is aware of the importance of sun protection to help take skin cancer off our fairways.
